

## Press Release

### **Sadler Law Firm LLP Launches Second Texas Office in Fort Worth**

**Houston** – February 13, 2012 - Sadler Law Firm LLP, the Houston-based national law firm dedicated to the legal concerns of energy companies, launches an office in Fort Worth, its third national office and second in Texas.

The new office is located at 420 Throckmorton Street, Suite 740, Fort Worth, Texas 76102. The office telephone number is 817-484-4194. This will be a temporary office location, as the firm will be moving to a permanent location in the Carnegie Building this summer. The office will launch with 2 full time attorneys with the anticipation of hiring up to 4 more attorneys from the local area within a month. The office includes one administrative staff member. Attorney Robert “Doc” Watson will be leading the Fort Worth division of Sadler Law Firm LLP.

“Our second Texas office strategically places us in a position where we can maximize our efforts in the Permian Basin, in the Granite Wash in the Panhandle, and north in Oklahoma and Kansas. This launch represents a larger growth within the firm. We are continuing to grow our Houston main office, with over 100 lawyers on staff. Our launch of our Pittsburgh office in December last year was successful. The Pittsburgh office has hired staff from the community and anticipates further growth. The opening of this third office represents a continued goal of bringing our unique tools of a national law firm to the specialized needs of various regions in the U.S.”  
– Randall K. Sadler, J.D., Managing Partner, Sadler Law Firm LLP.
